PROJECTS

BESTBUY-CLONE   🔗

Tech Stacks Used- HTML | CSS | Java Script

- An E-commerce website to buy all types of , Electronics, kitchen and House holds.
- It was a collaborative group project where, I have created the data base manually and created the Api out of it and created the product listing and product detail part where the JavaScript was used extensively .

FRAAZO-CLONE   🔗

Tech Stacks Used- HTML | CSS | Java Script

- A website to buy all types of fruits, vegetables & kitchen staples.
- It was a collaborative group project where, I have created the user login and signup part where the JavaScript was used extensively .
